

PRINCIPLES OF ANIMAL RESEARCH

A new course offered this summer!

“Because animal research saves animals, too.”

This course is for students who...

- want to investigate the application of animals in research
- are pursuing a career in research, veterinary/human medicine, or a related field
- seek to gain confidence in study design and engaging in scientific discussions

Upon completion of this course, students will be able to...

- Describe the application of animals in research, and the associated benefits and challenges
- Critically examine peer-reviewed research articles
- Assess media reports for accurate representation of scientific findings
- Draft a mock study design

For questions or a copy of the syllabus email:

jessica.scare@uky.edu

Course Details

EQM 300-001 Principles of Animal Research

Credit Hours: 3

Term: Summer 2019
